

7.3.1 Portray the performance of the institution in one area distinctive to its priority and thrust

Jijamata College of pharmacy, Nandurbar envisions the journey of the institute towards the development of technical excellence among the students to make them globally competent pharmacists. Institute provides conducive environment to facilitate the educational and technical excellence among students and provide environment inculcate the human and professional values. Modes, methods, concepts and contents of classroom behavior is changing, which made the teachers to adapt the novel tools of teaching methodology involving computer assisted learning tools. Seminars and webinar for practice test of GPAT/other pharmacy based competitive examinations. This will make the students to prepare for examination effectively making most of the use of time. Experiment and research methodologies involving the use of seminar and webinar help to cope up with technical advancement in the industry and gain the excellence amongst students.

Academic and overall achievement is the extent to which a student, teacher and institution have attained their short or long term educational and research goals.

The Academic and Innovative Pedagogy of the college are as follows

I) Academic Achievements: Our attempts to foster diverse all-round growth including teaching, learning and evaluation attributes are rated ‘outstanding’. In order to redefine academic excellence, JES's faculty members strive for it and go beyond teaching. As the educational system becomes increasingly student-centered, it is the responsibility of the institute to guarantee that proper teaching and learning requirements are met. Students are encouraged to align their standards with industry and social demands as part of this process. The well-defined student-centered system has the following goals:

- 1) To establish and maintain state-of-the art teaching facilities.
- 2) To train students in emerging technologies.
- 3) To set up and maintain state-of-the-art laboratories
- 4) To train them about interview skills.
- 5) To provide training in emerging technologies through “Training and Placement Cell”
- 6) To empower the student community through various seminars and webinar to emerge as a hub for educational excellence to achieve higher education that is on par with industry and societal requirements.

Students were given full flexibility to built talents and train in managing numerous activities of professional organizations through various seminars and webinar's, which deals with the overall development of students

II) Innovative Pedagogy on the classroom: ➤ Jijamata Education Society's College has implemented an innovate Teaching Pedagogy i.e., using smart classrooms for better converging concepts and creating more learning experiences by adopting technologies like Audio/ Visual aids from a wide variety of sources.

- The teacher will easily cognitively engage and include students as active participants in the classroom using Brain Storming techniques.
- All the students were informed to actively participate indifferent activities that allows them to engage with the materials directly.
- Question and answer session, transforms a lecture into a guided conversation in which the faculty asks students insightful questions.
- Comprehensive and continuous assessment gives instructors a greater knowledge of what students are learning and helps students become more involved in the learning process.

Title of activity: One Day Workshop on Personality Development**Date:** 15/09/2018**Venue:** Seminar Hall of Jijamata Education Society's College of Pharmacy, Nandurbar**Resource Person:** Mrs.Rashmi Gokhale**In Charge of Activity:** Ms. P. M. Waghela**No. of Participant-** 42**Brief view of activity:**

A program for Personality development was organized by JES'S College of Pharmacy Nandurbar. Positive attitude helps in the development of personality. A person with an pessimistic mentality sees the negative in everything. Instead of complaining and criticizing others around you, consider the entire situation and work to find a workable solution. Keep in mind that if there is a problem, there must also be a solution. Keep your calm at all times. It would exacerbate the problem.

People need to act appropriately around other people. Being courteous to others will get you respect and pride in addition to making you popular with others. You cannot expect respect from the rude individuals around you. Personality development is crucial for the growth of both your internal and external personalities. Humans are social animal. One needs others surrounding. An individual must possess the magnetism that attracts others to him. You must possess your natural attractiveness. Your personality influences how you are perceived by others and how society as a whole views you.
