**Title of activity:** "One Day Workshop on Guidance for Lecture on How to Prepare for GPAT exam"

**Brief view of activity:**

A program for was organized at JES'S College of Pharmacy Nandurbar. Positive attitude development helps in the development of preparation for competitive examinations. A person with an optimistic mentality sees the negative in everything. Instead of complaining and criticizing others around you, consider the entire situation and work to find a workable solution. Keep in mind that if there is a problem, there must also be a solution. Keep your calm at all times. It would exacerbate the problem.

People need to act appropriately around other people. Being courteous to others will get you respect and pride in addition to making you popular with others. You cannot expect respect from the rude individuals around you. Preparation for competitive examinations is crucial for the growth of both your internal and external abilities.
