7.1.4 Water conservation facilities available in the Institution: Rain water harvesting bore well /Open well recharge Construction of tanks and bunds Wastewater recycling Maintenance of water

Rainwater Harvesting System

1) Roof-top Rainwater Harvesting System

The college ensures rain-water conservation through rainwater harvesting. The rain water from the roof top outlets is carried through the well-connected pipelines to borewell and from borewell it gets transferred to ground from which it can be used or recycled again.

III) Maintenance of water bodies and distribution system in the campus

Jijamata Education Society's College of Pharmacy, Nandurbar has Water supplies are obtained from borewell. Water supplies coming from back side of campus; college has two tanks for water storage, one tank is 2,000 litter capacity and another having 10,000 litter capacities. The water from overhead tank is distributed to all taps across the campus. Our own institution plumbers maintain the plumbing system. Whenever the problems are identified immediate actions are taken for restrict wastage of water.
