

7.3.1 Portray the Performance of the Institution in One Area Distinctive to its Priority and Thrust

Jijamata College of Pharmacy, Nandurbar envisions guiding the institute towards fostering technical excellence among students, preparing them to become globally competent pharmacists. The institute offers a supportive environment that nurtures educational and technical growth while instilling human and professional values.

As classroom dynamics evolve, teachers are adopting innovative teaching methodologies, including computer-assisted learning tools. To further enhance learning, the institute organizes seminars and webinars, focusing on practice tests for GPAT and other pharmacy-related competitive exams. These initiatives enable students to utilize their time effectively and prepare comprehensively for examinations.

Incorporating seminars and webinars as part of experimental and research methodologies equips students with the skills needed to adapt to technological advancements in the industry, ensuring they achieve academic and technical excellence.

The academic and overall achievements of students, teachers, and the institution reflect their ability to meet both short- and long-term educational and research goals, contributing to the holistic development of all stakeholders.

The Academic and Innovative Pedagogy of the college are as follows

I) Academic Achievements: Our attempts to foster diverse all-round growth including teaching, learning and evaluation attributes are rated 'outstanding'. In order to redefine academic excellence, JES's faculty members strive for it and go beyond teaching. As the educational system becomes increasingly student-centered, it is the responsibility of the institute to guarantee that proper teaching and learning requirements are met. Students are encouraged to align their standards with industry and social demands as part of this process. The well-defined student-centered system has the following goals:

- 1) To establish and maintain state-of-the art teaching facilities.

- 2) To train students in emerging technologies.
- 3) To set up and maintain state-of-the-art laboratories
- 4) To train them about interview skills.
- 5) To provide training in emerging technologies through "Training and Placement Cell"

II) Innovative Pedagogy in the Classroom

JES's College has introduced innovative teaching methodologies to enhance learning experiences and engagement:

- Smart Classrooms: The use of advanced technologies, including audio-visual aids from diverse sources, facilitates better concept delivery and enriched learning experiences.
- Active Student Engagement: Teachers employ brainstorming techniques to actively involve students and foster cognitive engagement in the classroom.
- Interactive Activities: Students are encouraged to participate in diverse activities, enabling them to directly interact with learning materials.
- Guided Conversations: Question-and-answer sessions transform traditional lectures into dynamic discussions, where faculty pose thought-provoking questions to stimulate critical thinking.
- Continuous Assessment: Comprehensive and ongoing evaluations provide instructors with valuable insights into student progress and encourage students to actively engage in their learning journey.

This innovative approach ensures an interactive, student-centered, and effective learning environment.
